

# 武汉市新生命脊髓损伤者生活重建服务中心

---

To whom it may concern,

I am writing this letter in support of Mr. Jiongyan Zhang's application for a position in your organization, where he determines to devote his energy for international affairs and public welfare establishments.

Mr. Zhang has participated in the project of Wuhan Public Transportation Accessibility APP as a volunteer over the period of September-November 2020. His job was to design a new algorithm and write the computer program for this app to provide the outdoor navigation for people with disabilities taking public transportation. The APP was jointly developed by Wuhan New Life Rehabilitation Service Center for People with Spinal Cord Injury as well as Professor Kun Qin and his research team of the School of Remote Sensing and Information Engineering, Wuhan University. Mr. Zhang has been a graduate student supervised by Prof. Qin. During the period we got along together, he was patient and modest enough to quickly learn new knowledge, which shows that he has a passion for experiencing new things. Furthermore, he also actively practised new knowledge just learned, bringing surprises for us in every routine meeting.

Meanwhile, he is also very impressive in his professional field. As the GIS of Wuhan University has a worldwide reputation, Mr. Zhang demonstrates that professional capability. Even without previous knowledge about wheelchair-accessible travelling and transportation, he was still able to respond efficiently to our requirements and developed a good algorithm prototype.

What is even more remarkable is that he loves to help others. In our many volunteer services for assisting persons with disabilities, he took an enthusiastic part in helping them enjoy a wheelchair-accessible travel in Wuhan. It shows that Mr. Zhang is not only a person with sound professional knowledge but also with the necessary virtues, which would make him a man valuable to our communities.

I am so grateful and satisfied with the volunteer service provided by Mr. Zhang. If you have any questions or inquiries, please feel free to contact me directly.

Sincerely,

Wenzhao Huang  
Director-General
